

Interpreting Maps: The Colonial Economy and Religious and Ethnic Diversity

Interpreting Maps: The Colonial Economy and Religious and Ethnic Diversity

Part A.

1. Which nationality was most common in all the colonies?
2. Which colonial section had the least variety of economic activity?
3. Which colonial section had the most diversity of religions?
4. Which section had the widest range of languages and cultures?
5. Which colonial section had the least urban development?
6. Which of the following factors best tied the colonists together: religion, trade, or language? (support with evidence)
7. Which of the following best reflected the presence of England in all sections of the colonies: the Anglican Church, slavery, or fishing? (explain your answer)

Part B.

8. What do you believe were the four most significant similarities among the colonies?
9. What were the four most important differences between the colonies in your opinion?
10. A society is characterized by similar values, mutual interests, shared institutions, and common culture. To what extent had the New England, Middle, and Southern colonies merged to create a single American society by the outbreak of the Revolution? Use evidence from the maps to support your answer.
